Blaisdell Park, Honolulu, HI

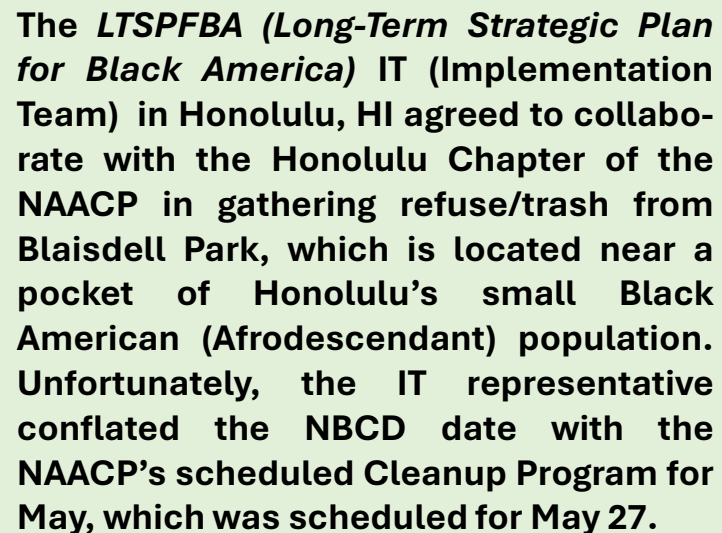

Long-Term Strategic Plan for Black America

Implementation Team

Brooks Robinson, Ph.D.
Rapporteur, *LTSPFBA* IT

May 23, 2026 – Blaisdell Park, Honolulu, Hawaii

Nevertheless, given an arrival at the park before we were aware of the mistaken date of the NAACP cleanup, we occupied ourself for just over one hour collecting trash in and around one of Blaisdell Park's pavilions, as the left (before) and right (after) photographs reveal. Park users leave the pavilions relatively clean.

As a second example of the trash collection performed, consider photos on the right.

In the first right photo, observe the cans, bottles, and paper in the grassy area as pinpointed by the white bracketed areas.

In the far-right photo, observe that all of the trash highlighted in the first right photo is no longer present.

As noted on slide 2, a team from the Honolulu Chapter of the NAACP conducted one of its many cleanup efforts for the year on a bright and sunny May 27, 2026.

The inaugural convener of the LTSPFBA's Planning Council, Baba Laurence Tunsil, and the LTSPFBA IT plan to continue expanding collaborations with other Black American (Afro-descendant) groups to make the NBCD a truly nationwide annual event.
